Business name	Maxicom (2013) Limited		
Workplace/site address	20 Herekino Street Whangarei		
Name of Client		Date/time	
Job #		Completed by	
Description of Work/Job			

This Environmental Management Plan (EMP) is site specific, and must be prepared before any Work commences.

Consents	
Is a 'resource consent' required for any of the activities you will undertake on this workplace/site?	Yes / No / NA
List the 'activities' on this workplace/site that require a resource consent.	
List the type of resource consent that is required.	
Dust, Fumes, or Smoke	
Will dust, fumes, or smoke be generated that could affect members of the public or others in the vicinity?	Yes / No / NA
What will be generated? <input type="checkbox"/> dust <input type="checkbox"/> fumes <input type="checkbox"/> smoke	
How would it be generated?	
How this will be controlled?	
Person(s) responsible.	
Dirty water, Wash-down runoff, silt, or other Contaminants	
Will your activity potentially cause dirty water or wash-down runoff, silt or other contaminants to be released?	Yes / No / NA
What would be generated? <input type="checkbox"/> dirty water <input type="checkbox"/> wash-down runoff <input type="checkbox"/> silt <input type="checkbox"/> other contaminants	
How would it be generated?	
Explain how this will be controlled.	
Person(s) responsible.	

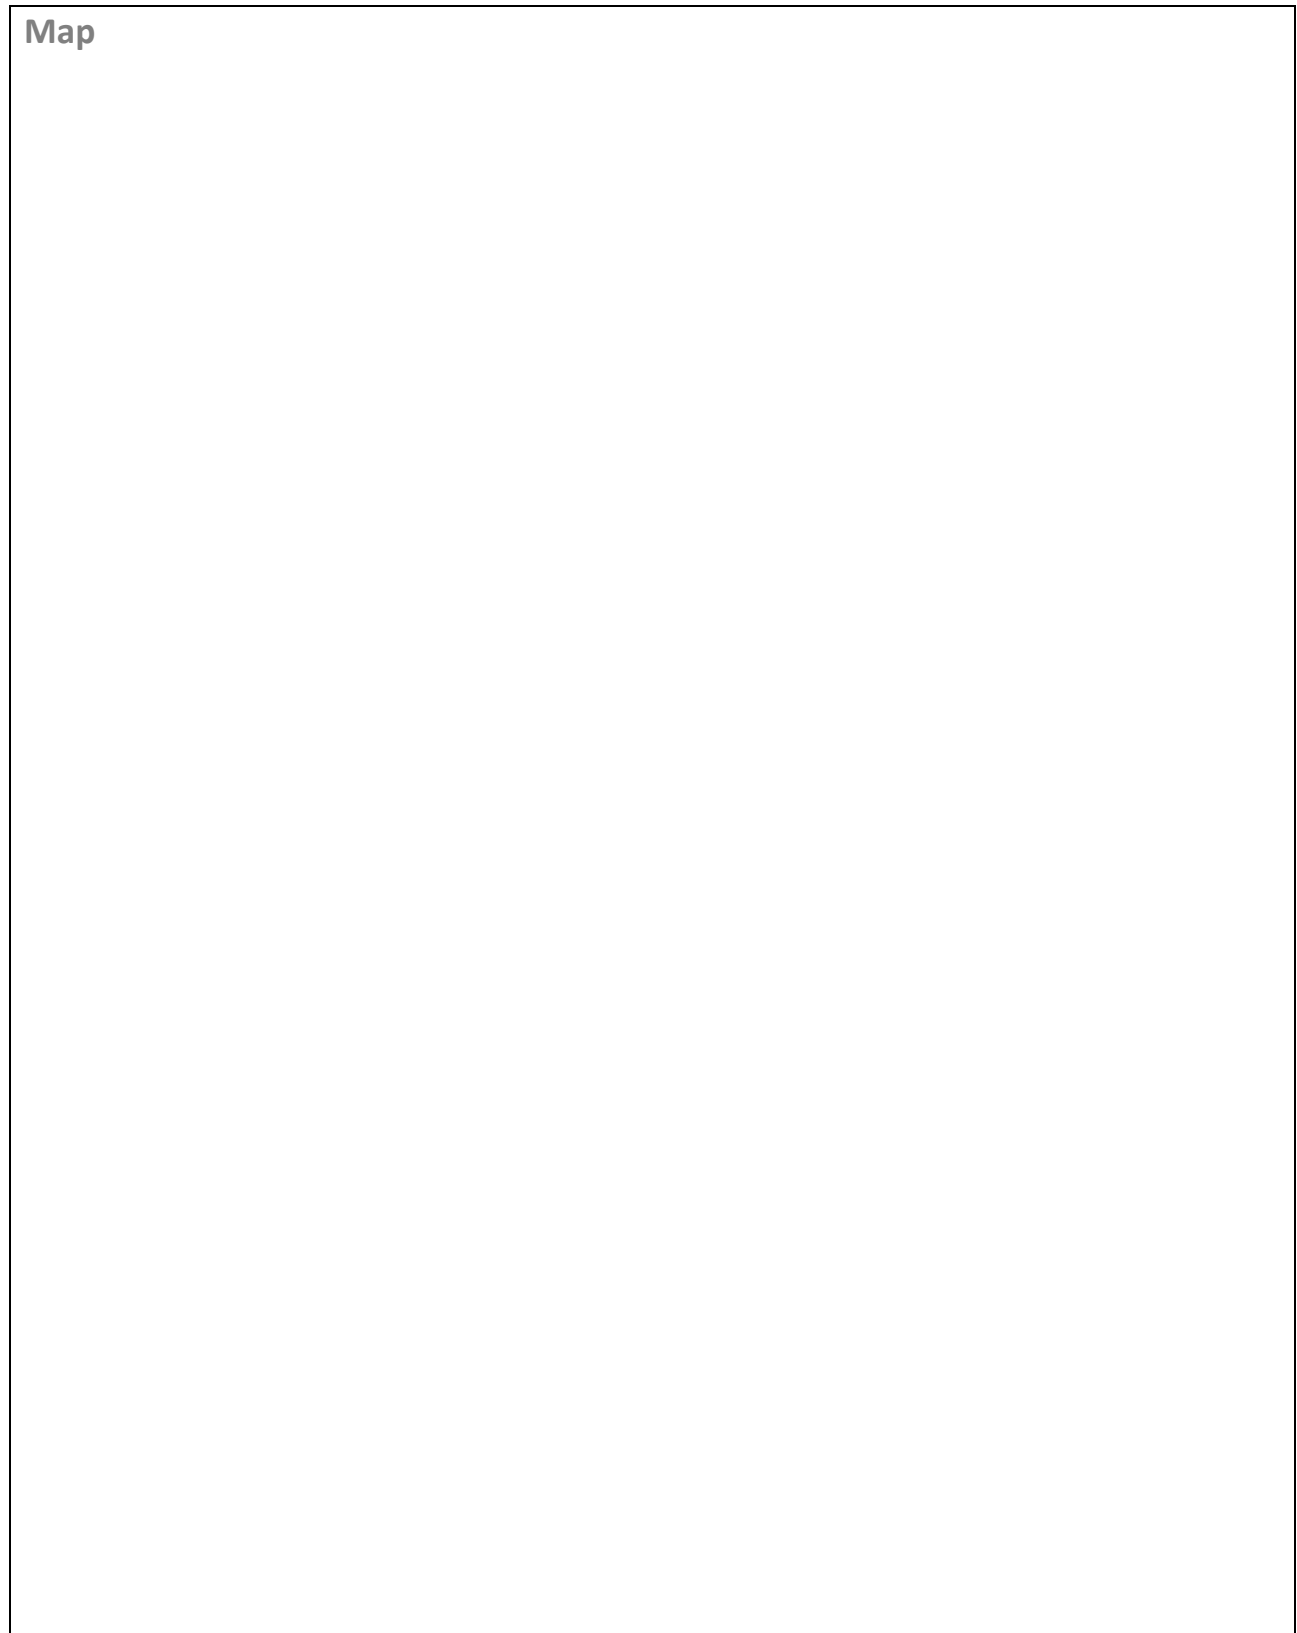

Noise	
Will noise be generated that could affect members of the public or others in the vicinity?	Yes / No / NA
How will the noise be generated, for what duration, and how often?	
How 'loud' will the noise be?	
How will the noise be controlled?	
Person(s) responsible.	
Refuelling on Site	
Will vehicles and/or plant be refuelled on this workplace/site?	Yes / No / NA
Has a refuelling zone been designated? If yes, state where it is located.	
Explain how the potential for fire and explosion during refuelling will be controlled?	
Explain how fuel leaks or spills will be controlled?	
Person(s) responsible.	
Waste Management	
Will construction waste be generated on this workplace/site?	Yes / No / NA
What will be generated?	
How would it be generated?	
How this will be managed, and disposed of?	
Person(s) responsible.	

1. Tick all the environmental issues that are present at the workplace/site.

<input type="checkbox"/> Dust, Fumes, or Smoke	<input type="checkbox"/> Refuelling on Site	<input type="checkbox"/> Dirty water, Wash-down runoff, silt, or other Contaminants
<input type="checkbox"/> Noise	<input type="checkbox"/> Waste Management	

2. Draw a 'map' of the workplace/site, showing where each environmental issue is located.

Map
